The screenshot shows the EndNote 6.17 application window. The 'Reference' menu is open, displaying a list of reference types such as 'Journal Article', 'Book', 'Conference Paper', etc. A red arrow points from the 'REFERENCE TYPE' callout box to the 'Journal Article' option in the menu. The callout box contains the text: 'REFERENCE TYPE Select the reference type before you create a new reference.' Below the menu, the 'Reference' and 'Preview' tabs are visible, with the 'Preview' tab selected, showing a preview of a reference entry: '1. Ernst D, Esche C, Erbsloh U. The art museum as lab to recalibrate values towards sustainable development. J Clean Prod. 2016;135:1446-60.'

Type I factor XIII deficiency is caused by a genetic defect of its b subunit: insertion of triplet AAC in exon III leads to premature termination in the second Sushi domain

T Izumi, T Hashiguchi, G Castaman, A Tosetto... - Blood, 1996 - Am Soc Hematology

Abstract Factor XIII deficiency has been classified into two categories: type I deficiency, characterized by the lack of both the a and b subunits; and type II deficiency, characterized by the lack of the a subunit alone. To clarify the genetic bases of these diseases, previously Cited by 52 Related articles All 6 versions Import into EndNote Save More

"Birdbrain" should be a compliment.

Pioneers in avian intelligence have found that although birds' brains are very small, they are incredibly intelligent, and sometimes have surprising similarities to the behavior or brain functions of humans. Examples range from the cockatoo who was the first animal documented to dance to a beat to Irene Pepperberg's in-depth studies done with the African grey parrot Alex (named for Avian Learning Experiment).

After a reference is in the EndNote library, it can be added to a Word document.
